### **Remington MPD Introduces New M24A3AI 338 Lapua Magnum – Extreme Range Sniper Weapons System**

**Madison, NC** – The Remington Military Products Division is proud to introduce its newest long range precision rifle platform; the **M24A3AI 338 Lapua Magnum**. The M24A3AI is based upon the legendary Model M24 Sniper Weapons System and features a host of significant upgrades not the least of which is its caliber; 338 Lapua Magnum. This system is designed for the professional operator who wishes to engage targets in excess of 1200 meters. The M24A3AI comes as a complete package, ready to deploy upon receipt.

Features of the newly introduced **Model M24A3AI** include a detachable five-round box magazine; Accuracy International Chassis System (AICS) stock assembly featuring full aluminum chassis, adjustable length of pull (LOP) and adjustable cheek rest; the Modular Accessory Rail System (MARS); Leupold® Mark 4® 8.5-25x50mm M1 Tactical Scope; and OPS INC 12<sup>th</sup> Model 338 LM muzzle break and sound suppressor. Unique to this Remington bolt action is an external extractor system which ensures reliable, consistent feeding and extraction of the powerful 338 Lapua Magnum cartridge.

For more information related to the Model M24A3AI and Remington's extensive line of Military and Law Enforcement firearms and ammunition, please visit our websites at [www.remingtonmilitary.com](http://www.remingtonmilitary.com) or [www.remingtonle.com](http://www.remingtonle.com).
