Subject: RE: M700 Owners Manual for Legal review
Attachments: CHANGES to Model 700 Owners Manual 9-5-08.pdf; Owner's Manual Update for Adjustment 6-13-08.doc; Model 700 Owners Manual Complete 9-5-08.pdf

Fred,

Per our discussion I have attached proposed changes (as indicated below) to our M700 owner's manual.

I noticed that you made several changes to "*The 10 Commandments of Firearm Safety*" in the M105 manual. This M700 manual revision does not include those changes. If you want the same changes let me know and I will change this one and the others as they come up for reprinting.

Note that the M770/715/710 firearm will continue to use the existing M700/M770 owner's manual until the inventory is used up or they get their new fire control in production and then create a new manual.

Steve

Subject: M700 Owners Manual for Legal review

Steve,

Please send the attached files to Legal for review. The attached files are:

1. A PDF file with red pen markups of the proposed changes.
2. A MS Word document with proposed additions for the Externally Adjustable X-Mark Pro trigger.
3. A PDF file of the M700 Owners Manual with the changes implemented.

This manual must be ready for shipping with guns on October 31st and the lead time for printing is **SEVERAL** weeks. So I would like to have approval (or request for changes) back to me no later than Friday, September 12th. I'd like to have a scanned copy of the cover page signed and dated by the approver.

Patrick
