Is there an Authorized Remington Repair dealer in Arkansas or does it have to be sent to one of the centers listed?

Response (Howerton) 6/15/2006 10:03:22 AM

Dear William:

Thanks for visiting Remington Country! We appreciate your interest and support of Remington products. Based on the information given, please have this firearm checked out either by an Authorized Remington Repair dealer or our factory.

If you choose to ship to the factory:

You can print the factory repair form and instructions at the following section of our site.

http://www.remington.com/support/repair_services/factory_repair_form.asp

Or follow these guidelines if in the US:

1. Record the serial number of your firearm before sending it to us.
2. Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box, not a hardcase.
3. Remove all accessories from your firearm to prevent loss or damage. This would include scope, slings, or extra choke tubes.
4. Enclose a letter with the firearm detailing the model name or number of your firearm and serial number along with a full description of the problem. Be sure to include your full name and address (P.O. Box and Street Address), including zip code, daytime telephone number, and e-mail address.
5. Ship your firearm by either United Parcel Service (UPS) or Parcel Post (US Post Office). Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier. Customer is responsible for shipping charges to the factory.

For U.S. repairs only, ship to:

Remington Arms Company, Inc.
Attn: Arms Services Division/Repairs
14 Hoefler Avenue
Ilion, NY 13357

WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.

My son had an incident with his Model Seven 308 at the end of last season where it discharged when he took the safety off. There were no injuries and I could not get it to do it again. Have there been any other weports of this and is there someting I need to have checked.
