The closest Remington Authorized Service Center is:

Gander Mountain

Kingston , NY 12401

You can send the firearm into our factory for this update. I have included the direction for returning a firearm to the factory.

You can print the factory repair form and instructions at the following section of our site.

Or follow these guidelines if in the US:

1. Record the serial number of your firearm before sending it to us.
2. Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box, not a hardcase.
3. Remove all accessories from your firearm to prevent loss or damage. This would include scope, slings, or extra choke tubes.
4. Enclose a letter with the firearm detailing the model name or number of your firearm and serial number along with a full description of the problem. Be sure to include your full name and address (P.O. Box and Street Address), including zip code, daytime telephone number, and e-mail address.
5. Ship your firearm by either United Parcel Service (UPS) or Parcel Post (US Post Office). Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier. Customer is responsible for shipping charges to the factory.

For U.S. repairs only, ship to:

Remington Arms Company, Inc.  
Attn: Arms Services Division/Repairs  
14 Hoefler Avenue  
Ilion, NY 13357

WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. My father has a 1970's Remington 700BDL left handed bolt action rifle that has a tendency to discharge when switched from the safety position. He would like to know where he can have this problem fixed. He lives in Connecticut, so if you have any shops in Connecticut or Massachusetts, he could bring the rifle there. If you don't have any shops near him, can he mail it to you or a dealer to have the problem fixed? The entire model number on the rifle is: 700LH6760994.
