

2007 New Product Brief – Firearms

***NOTE: All MSP prices listed are Tentative until '07 costing is finalized**

Introducing the new X-MARK-PRO Fire Control (formally the SPL fire control)

The **X-MARK-PRO** Fire Control will be a “phase-in” operation over the course of the next year as we phase them in to current Model 700’s and Model Seven’s when we have used the current supply of fire controls. Process will begin with Stainless guns, and move to Blued guns as phase in progresses. *Visually identifiable features; trigger shoe face is smooth, not ridged like the previous trigger; also, it is gunmetal grey in color.*

■ Features

- ☐ Improved out-of-the-box feel
- ☐ Better surface finish on key components for crisper trigger pull (plated components)
- ☐ Designed to accommodate all products in the Model 700 and Model Seven families
- ☐ Design allows for lower trigger pull settings from the factory (3.5lbs-5.5 lbs VS prior trigger settings of 4.75lbs-6.75lbs)
- ☐ Enhanced corrosion resistance (plated components)
- ☐ Operates like current fire control
- ☐ Safety blocks sear and trigger
- ☐ Trigger pull adjustable by Authorized Repair Centers (3.5 lb minimum on production rifles)

How it Works?

1. With the safety in the SAFE position, the blocker ensures the trigger is blocked and under the sear while the sear safety cam is supported by the safety.
2. With the safety in the FIRE position, the blocker moves away from the front of the trigger and the safety lowers the sear safety cam on top of the trigger.
3. When the trigger is pulled with the safety in the FIRE position, the trigger rotates from beneath the sear safety cam and allows it to drop, releasing the firing pin. Forward motion of the trigger is stopped by the blocker.

2007 New Firearms Products**Model Seven XCR Camo**

Intended to offset lagging Model Seven Stainless sales due to lack of product evolution, the Model Seven XCR intends to build upon the success of the big brother Model 700 XCR by offering many of the same features in a compact rifle package. Rifle will be offered in both standard short action hunting cartridges as well as a Magnum version chambered for WSM cartridges. Key features include:

- 416 stainless steel barreled action with TriNyte corrosion control application (same as Model 700 XCR)
- 20” Magnum contour (22” on Magnum version) barrel with Light Varmint style fluting.
- Hinged floorplate magazine
- New **X-MARK-PRO** fire control
- Synthetic stock dipped in new Realtree AP camo pattern
- R3 Recoil pad

Model 700 CDL SF LTD Edition

Continuing the success of the Model 700 CDL SF LTD Edition .30-06 Sprg Centennial commemorative, the LTD edition offering will continue with a commemorative offering to mark the introduction of the new .17 Remington Fireball cartridge. Key features include:

- 24" Magnum contour 416 stainless barreled action with Light Varmint Style fluting
- Commemorative engraved hinged floorplate noting the introduction of the new .17 Remington Fireball cartridge
- Special receiver heavy roll marked Model 700 Limited
- CDL walnut stock with black fore end tip and grip cap
- R3 Recoil pad
- New X-MARK-PRO Fire control

MSP - \$799

RAMAC# 84010 (.17 Rem Fireball) New Caliber

Model 700 CDL SF

The limited edition offering of this gun in .30-06 for 2006 was a huge success, bringing many requests from customers for a full line offering of similarly configured rifles. For 2007, the Model 700 CDL SF will be featured as a full line product category, featured like the limited edition predecessor without the engraved floorplate or "Limited" markings on the receiver. Key features include:

- 24" (26" Magnum) magnum contour 416 stainless barreled action with Light Varmint Style fluting
- CDL walnut stock with black fore end tip and grip cap
- Hinged floorplate magazine
- R3 Recoil pad
- New X-MARK-PRO Fire control

Model 750 Synthetic

Intended to replace the lagging Model 7400 synthetic, the new Model 750 Synthetic features the improved gas system of the Model 750 Woodsmaster in a matte blued version with new styled synthetic stock and fore end. Key features include:

- All improvements included in the new Model 750 Woodsmaster
- New re-styled synthetic stock and fore end (700 SPS style grips and synthetic Model 750 style fore end)
- Matte blued barrel and receiver
- R3 recoil pad

Model 700 XCR RMEF Limited Edition

Continuing with a RMEF trade gun offering for 2007, the Limited Edition XCR will feature the new Realtree AP camo pattern (to be adopted by RMEF as the official pattern). The 2007 offering will be chambered for the venerable .300 Remington Ultra Magnum cartridge. Key features include:

- 416 stainless steel barreled action with TriNyte corrosion control treatment
- 26" magnum contour barrel
- Realtree AP camo XCR style stock with overmolded grip and fore end w/R3 recoil pad
- RMEF logo engraved hinged floorplate magazine
- New **X-MARK-PRO** fire control

MSP - \$923

Model 700 DENALI Ti Replaces Model 700 Summit Ti

This new product offering for 2007 brings a new look and style to the existing Model 700 Titanium rifle category. Adding new features, a new look and new chamberings for 2007, the new category offering should add new interest and generate new sales volume for the Model 700 Titanium rifle category. Key features include:

- Current Model 700 Titanium receiver
- Soft Touch finish on stock
- 24" Magnum contour barrel with Light Varmint style fluting
- Hinged floorplate magazine box
- Existing Model 700 Titanium stock style with new black with grey webbing paint scheme
- Spiral fluted bolt body with skeletonized bolt handle to reduce weight
- New **X-MARK-PRO** fire control
- Front and rear sling swivel studs and R3 recoil pad

Model 700 XCR Tactical Long Range Rifle

Designed for long range target shooting and hunting, the new Model 700 Tactical Long Range Rifle is intended to fill an apparent void in the Remington rifle line for the shooter seeking long range tactical precision shooting features. Equipped similar to the popular Model 700 Varmint and Sendero products, the Model 700 Tactical includes additional features that appeal to the tactical long range shooter. Key features include:

- New Tactical Bell & Carlson stock (OD Green w/Black Webbing) featuring full length aluminum bedding block, tactical beavertail fore end and recessed "thumb hook" feature behind pistol grip for "off the bench" shooting performance
- TriNyte Black PVD coated 26" varmint contour barreled action for uncompromised strength, corrosion/abrasion resistance, and rugged good looks
- Free floating barrel w/Dish style target crown, drilled and tapped for scope mounts
- New **X-MARK-PRO** fire control
- Hinged floorplate magazine
- Dual front swivel studs and rear stud—Wide Tactical Style barrel fluting

MSP - \$999 (all SKU's)

Model 7615 Tactical Rifle (TAC-10)

The Model 7615 Tactical Rifle is a unique carbine style rifle ideally suited for the rancher, or tactical target shooter. The 7615 is well suited as an alternative sporting arm choice to the AR-15. Key features Include:

- 7615 Action with 10-round detachable magazine box
- 16 ½" rifle sighted barrel (standard rifle sights)
- Knoxx NRS adjustable length of pull stock
- Standard 7600 synthetic fore end
- Sling swivel studs
- Satin Black Oxide finish
- "MODEL 7615 " Roll-Stamping

MSP - \$699

RAMAC 86400

(Caliber) .223 Remington

Model 7615 Ranch Carbine

The Model 7615 Ranch Carbine features the same basic action system as the Model 7615 Tactical referenced above with more traditional styling. Key features include:

- 7615 Action with 10-round detachable magazine box (high-polish blued finish)
- 18 ½" high-polished blued "clean barrel"
- Drilled and tapped for standard Model 7600 scope mounts
- Satin finish American walnut stock and fore end (same as Model 7600)
- Sling swivel studs
- "MODEL 7615 " Roll-Stamping

MSP - \$699

RAMAC 86401

(Caliber) .223 Remington

Model 7615 Camo Hunter

The Model 7615 Camo Hunter features the same basic action system as the Model 7615 Tactical referenced above with full camo in Mossy Oak "Brush" pattern. Key features include:

- 7615 Action with 10-round detachable magazine box
- 22" full camo rifle sighted bbl
- Drilled and tapped for standard Model 7600 scope mounts
- Full Camo covering in Mossy Oak Brush Camo
- Sling swivel studs
- Stock and Fore-End same as synthetic Model 7600 (with MO-Brush camo)
- "MODEL 7615 " Roll-Stamping

MSP - \$739

RAMAC 86402

(Caliber) .223 Remington

SP-10 Magnum Thumbhole Camo

The Model SP-10 Thumbhole Camo features the same reliable, durable, and time-tested action system as the proven SP-10 with the benefits of a Thumbhole stock, special Briley Straight-rifled Ported "TURKEY CHOKE TUBE" specifically optimized for performance in the SP-10, and full camo in the popular Mossy Oak Obsession pattern. Key features include:

- Legendary 10 Ga. 3.5" performance
- 23" Rifle-sighted Turkey barrel
- High performance Williams "Fire-Sights" fiber optic sighting system
- Fully camouflaged with Mossy Oak Obsession camo w/matching padded sling
- Briley Straight-rifled ported "TURKEY" CHOKE TUBE
- Thumbhole stock with R3 recoil pad for ultra steady aim
- Specially Optimized PatternMaster "Turkey" choke tube

MSP - \$1,464

RAMAC 81000

(Gauge) 10 Ga.

Model 870 SPS Super Magnum MAX Gobbler

The Model 870 SPS Super Magnum MAX Gobbler includes all of the great features that the workhorse 870 Super Magnum is known for, with the addition of a recoil reducing and fully adjustable for length of pull stock. Key features include:

- Fully adjustable for length of pull recoil reducing stock by Knoxx Industries
- 23" 12 Gauge Rifle-sighted Turkey barrel (Rifle sights are fully adjustable)
- High performance Williams "Fire-Sights" fiber optic sighting system
- Fully camouflaged with Realtree All-Purpose (Green) HD camo
- Drilled and tapped receiver (for Weaver style rail)
- **Include Turkey Extended Super Full Rem-Choke Tube**
- R3 recoil pad

Model 770 (Replaces the Model 710)

The Model 770 will replace the Model 710 in the product lineup for 2007. Keeping with the stellar accuracy and dependable performance of the Model 710, the Model 770 will keep the same action and barrel (with super accurate button rifling), but will include a technologically advanced and re-designed stock which includes molded in sling swivel studs, an easier to cam (open/close) bolt, and a more durable magazine latch design. Also includes two new chamberings (7mm-08 & .308) for '07. Key features will include:

- New Synthetic Stock (Black) Design with Molded in Sling Swivel Studs
- Comes with Factory mounted and Bore-sighted Bushnell Sharpshooter 3x9x40mm scope
- Smooth-Camming 60 Degree bolt
- Updated magazine latch
- Detachable magazine holds 4 standard cartridges and 3 magnum cartridges
- Ultra accurate 6 groove button rifled Ordnance-Grade Steel barrel (22" std. calibers, 24" Magnum Calibers)

2007 Premier Dealer line of Firearms

The Premier Dealer Line is meant to offer a unique line of firearms that are available to our most select wholesalers.

“Premier Dealers deserve premier products—They deserve Remington”

*Note: both of these 870 XCS's were formally to be listed in the 2007 full line catalog, and have been transferred to the Premier Dealer line includes the 715 Sportsman below also.

Model 870 XCS Super Magnum (Xtreme Conditions Shotgun)

The Model 870 Super Mag. (Xtreme Conditions Shotgun) will be a unique addition to the current line of Model 870 Special Purpose Shotguns. Joining an already elite group of America's most trusted pump action shotguns; the 870 XCS features our Armor-like TriNyte PVD “Overcast Grey” coating which provides the rugged strength, and uncompromising corrosion and abrasion resistance that today's Xtreme hunting environments demand. To help tame recoil and provide a convenient place to store extra shells, the 870 XCS is also outfitted with a SpeedFeed I shell-holding stock and R3 recoil pad. Key features include:

- Supplied with IC, Mod., and Full Rem-Choke tubes
- Features our Armor-like TriNyte PVD “Overcast Grey” color coating for superior corrosion and abrasion resistance
- Outfitted with a SpeedFeed I shell-holding stock and recoil reducing R3 recoil pad
- Nickel Plated internal components for superior corrosion resistance

Model 870 XCS Super Magnum-Waterfowl (Xtreme Conditions Shotgun)

The Model 870 Super Mag.-Waterfowl (Xtreme Conditions Shotgun) will be a unique addition to the current line of Model 870 Special Purpose Shotguns. Joining an already elite group of America's most trusted pump action shotguns; the 870 XCS features our Armor-like TriNyte PVD “Marsh-Grass Gold” coating which provides the rugged strength, and uncompromising corrosion and abrasion resistance that today's Xtreme Waterfowl hunting environments demand. To help tame recoil and provide a convenient place to store extra shells, the 870 XCS-WF is also outfitted with a SpeedFeed I shell-holding stock and R3 recoil pad. Key features include:

- Supplied with Imp. Cyl., Mod., and Full Rem-Choke tubes
- Stock and Fore-End Camouflaged in New Mossy Oak “Duck Blind” camo
- Features our Armor-like TriNyte PVD “Marsh-Grass Gold” color coating for superior corrosion and abrasion resistance
- Outfitted with a SpeedFeed I shell-holding stock and recoil reducing R3 recoil pad
- Nickel Plated internal components for superior corrosion resistance
- Legendary 870 Super Magnum Performance (handles all 12 Ga. loads from 3 ½” to 2 ¾”)
