Remington Model 700™ Custom “C” Grade – Tradition Meets Performance

Madison, NC – Every Remington Custom Shop rifle is a unique work of art. The new **Model 700 Custom C Grade** rifle unites tradition with performance by combining the timeless beauty of walnut and richly-blued steel, all with the attention to detail and a level of perfection that only the Remington Custom Shop can provide.

As pleasing as the Model 700 C Grade may be to the eye, its performance in the field is also something to be admired. Accuracy is a hallmark of every Remington Model 700 rifle, and the Model 700 C Grade is certainly no exception. The Model 700 C Grade features custom turned and chambered, hammer-forged barrels with “blue-printed” actions. The Model 700 Custom “C” Grade comes standard with a Monte Carlo style stock with cheek piece, constructed of satin-finished, fancy American Walnut. For a distinctive flair, the stock is further enhanced with rosewood fore-end tip and grip cap and cut point pattern checkering. All Model 700 Custom “C” grade rifles are fitted with a BDL style trigger guard and hinged floor plate.

For more information on the **Model 700 Custom “C” Grade** and other fine Remington Custom Shop products, please visit our web site at www.remington.com.
