Remington Military Products Division Introduces the Model 700 6.8 Rem Light Tactical Rifle (LTR)

Madison, NC - Remington Military Products Division continues to work diligently to provide our nation's military forces with highly effective firearms tools for use in the defense of our nation. New for 2005 is the **Model 700 6.8 Rem LTR** – an enhanced version of the widely used Model 700 bolt action rifle.

Features of the newly introduced **Model 700 6.8 Rem LTR** include chambering in the newly released 6.8 Rem, 4 round internal magazine, 20" hammer forged and fluted match barrel, Aramid fiber and graphite stock featuring an aluminum bedding block and the time proven Remington Model 700 trigger assembly.

The **Model 700 6.8mm LTR** provides a light weight highly portable precision weapons system ideally suited for military law enforcement duties and civil military applications. The 20" fluted hammer forged barrel provides exceptional accuracy while the 6.8 Rem chambering provides less recoil than 7.62mm systems but increased lethality over standard 5.56mm systems.

Remington Military Products Division continues to strive to develop and offer superior products to out nation's combat forces.
