FROM S. M. ALVIS

MODEL 50 WINCHESTER - AUTOLOADING SHOTGUN

In connection with the report requested on the above competitive arm, I find that the magazine on the Model 50 has adequate space for inserting two Remington 3" dummy shells (or regular). Naturally, there is also more than adequate space to handle the Winchester and Western 3" Magnum shells.

Also, attached hereto is copy of progress report from D.E.D. with respect to the M/552. They had intended to present this to be incorporated in the minutes but were not present at the time this was covered on Monday.

Let's
