

a limited market for such a gun, but they will attempt a more extensive survey of potential markets if the present investigation by Research and Development indicates that safety is adequate.

The second type of gun under consideration is an underwater gun of which an Italian version has been received. It is estimated that there are in this country between 3 and 4 million skin divers who have at present three types of guns available to them:

- a. Rubber band- or cable-operated
- b. CO₂-operated
- c. Cartridge-operated, such as the Italian gun.

Because of the rapid increase in the popularity of skin diving, the Sales Department will explore further the potential market for such a gun.

2. TRADE-MARKS

The Sales Department desired to record the fact that the du Pont oval should be incorporated in the butt plate design of guns as soon as convenient.
