

GENERAL

FIREARMS SURVEY - MASTER DEVELOPMENT LIST

S-1 - Light Colored Stocks and Fore-ends

The Sales Department provided new breakdown figures of Sportsman-58 and Model 870 shotguns including the additional forecast 1,500 Sportsman-58 and 1,000 Model 870 shotguns with the introduction of light wood stocks and fore-ends. Figures are as follows -

SPORTSMAN-58 ADL

	<u>1959 Forecast</u>	<u>With Blonde Wood Models</u>
Sportsman-58 ADL	17,600	16,900
Sportsman-58 SA & SC	2,000	1,750
Sportsman-58 TB	400	350
Sportsman-58 SBL (Blonde)	--	2,275
Sportsman-58 TBL (Blonde)	--	225
Total	20,000	21,500

MODEL 870 ADL

	<u>1959 Forecast</u>	<u>With Blonde Wood Models</u>
Model 870 ADL	6,150	6,025
Model 870 SA & SC	150	125
Model 870 TB & TC	700	650
Model 870 SBL (Blonde)	--	850
Model 870 TBL (Blonde)	--	350
Total	7,000	8,000

The Plant and the Treasurer's Department will prepare economics.

S-2 - Rifle Sights on Shotgun Extra Barrels

The Sales Department has reviewed barrel prices for the Model 870 and Sportsman-58. Recommendations have been made to Management to correct discrepancies between barrel prices. The net result of recommendations would be an increase in the Model 870 barrel prices.

Preliminary economics were favorable and since price increases only are anticipated, later economics should be even more favorable. It is planned to resolve this item by letter prior to the next meeting. Sales will make recommendations on prices; economics will be prepared.
