Dear Mr. Stahl

I experienced for a long time that
my Rifle will fire when I release the
Safety. It will not happen all the time,
but the last time at the Rifle range was
to close.

My Dealer & Gunsmith can't do anything about it -
and told me to get in touch with Remington.
So after calling Bridgeport I was told to
send the Rifle to NY to your attention.

So Mr. Stahl here it is, and I
hope you will take good care of it and
let me have my Favorite Rifle back
real soon.

Thank you very much

Yours truly

Helmut Benthin

near end of firing Pin Head, sides
and it also.

Sent new instruction manual to customer.
