GENERAL

Design Changes on
Production Items

Sales recommends that the procedure 10-11 for reporting design changes in production guns be improved. The Committee recommended a co-operative effort by all departments to improve design change reporting.

POWDER-ACTUATED TOOLS

<u>Subject</u>	<u>Summary</u>	<u>Page</u>
<u>STUD DRIVERS</u>		
3/8" Captive Stud Driver Piston	Committee approves change of materials to "Omega" steel and sale of units at an increased price of \$8.50, to offset increased material cost.	11-12
