

FIREARMSSHOTGUNSMODEL 1100 AUTOLOADING SHOTGUNMahogany Stocks - 20 Gauge

Sales reported that field reaction to the mahogany Stock and Fore End would not be available until the first part of 1965.

To date, the Ilion plant has no record of any complaint for either a broken mahogany Stock or Fore End.

Committee Action

The committee approved discontinuing reporting on this item until the February 1965 meeting.

VENT RIB BARREL ASSEMBLY

It is planned to start making wider vent ribs by the end of September. In some cases, temporary operations will be required until permanent equipment is available. This program should make the changeover essentially complete by January 1965.

MODEL 870 TB AND TC - MODEL 1100 TB MONTE CARLO STOCK

Sales proposed a Monte Carlo Stock for TB and TC grade shotguns as optional. The conservative estimate is that 25% of the present sales volume will be in the Monte Carlo type plus an additional two hundred and fifty (250) new guns. The economics (Table 1) show a 84.3% return on total investment.

R & D and Sales are to immediately determine Stock dimensions. If necessary, R & D will prepare models for Sales approval.
