

CENTER FIRE RIFLES - contd.Receiver - contd.Committee Action

The appearance change to the Receiver was approved.

MODEL 742-760 "BDL" GRADE

The Operations Committee reviewed the prototype Model 760 Slide Action Center Fire Rifle. The following are the accepted design features:

Stock

1. Same as approved for Model 742.

Fore End Assembly

1. Attachment same as present Model 760 Carbine.
2. "Basket weaver" (wide line) custom checkered both sides and bottom.
3. Fore End shape as presented on prototype rifle with matching Fore End Cap and Spacer.
4. RK-W finish.

Receiver

1. Same as approved for Model 742.

The grade designation is to be "BDL" and this will be indicated on the carton label and in instructional literature.

Marketing reported favorable reaction to the Model 742 prototype which had been shown at the Regional Sales meetings. It is proposed to offer the "BDL" rifles in the 30-06 caliber only for 1965.
