

CENTER FIRE RIFLES - contd.AUTOLOADING RIM FIRE RIFLE (NYLON 66 ACTION) - contd.Hand Guard

1. Stepped plastic Hand Guard which also provides a base for the Rear Sight

Front Sight

1. Model 700 type

Rear Sight Assembly

1. Model 700 type

Trigger Guard

1. Steel formed part

Receiver & Barrel Assembly

1. Metal formed Receiver Cover with attached powder metal ends to provide supports for the fastening of the Fore End and Stock
2. Molded nylon Receiver Insert to accommodate Nylon 66 rifle functioning parts
3. Barrel attached to front powder metal ends for stability and rifle accuracy

Safety

1. Located similar to Nylon 66 rifle on top of the Stock.

The features as outlined give the proposed rifle a Center Fire Rifle appearance. R & D expects to have a shooting prototype for review at the March 9 Operations Committee Meeting.
