

TABLE 3

that this be extended, we should first confirm as to Management policy for considering such a procurement from a source other than our domestic manufacture. It would seem to us that the most logical source for procurement would be from Kriegoff who are presently manufacturing a copy of the Model 32 Over & Under Shotgun and being imported and marketed in this country in limited quantities. We would consider that this firm be approached to determine their interest in making a "name brand" model for Remington distribution and if necessary up-graded to the desired quality levels to be set forth in specifications to be developed by Remington. The Research Director has suggested that Purchasing be asked to make an initial inquiry in order to determine the potential interest of this firm.
