Gentlemen:

We thank you for your letter of Febr. 25,

We very much would like working together with you. The name of your house is world-famous.

In our country Krieghoff guns enjoy a good reputation.

We, however, believe that at present such a co-operation is not possible.

You are knowing that we are manufacturing for Europa Corporation in Miami, an Over/Under 12 ga Model 32 which formerly had been made by you. They want a rising of our production. Therefore, we first should have to accomplish this request before we could manufacture a new model together with you.

But perhaps you could talk about that with Europa Corporation.

Beside the Over/Under 12 ga Model 32 we are also making another Over/Under with side locks and ejectors, however, only in 16 ga and 20 ga Magn. 3". We don't believe you are interested in it.

Very truly yours,

H. Krieghoff K.G.
