

CENTER FIRE RIFLES - contd.Caliber 6.5mm Remington - contd.Committee Action

The Committee approved and recommends General Management approve the addition of the 6.5mm Remington caliber in the Model 600 Magnum laminated Stock rifle. Announcement to be January 1966. Submittal is subject to satisfactory economics which are to accompany the request for Management approval.

Caliber 223 Remington for Export Sale

Export Sales requested Operations Committee approval of the Model 600 Bolt Action Rifle in the 223 Remington Caliber. Initial orders would be at least for one hundred (100) rifles with probable annual sales in excess of two hundred (200). 83

223 Caliber ammunition is available in foreign countries and has created the export market.

The Ilion plant would have to produce special lots of Barrels and warehouse limited quantities to take care of export sales requirements. Production costs should approximate the normal Model 600 figures.

Committee Action

The Committee approved and recommends General Management approval of the 223 Remington caliber in the Model 600 for export sales.
