

TELESOPES AND MOUNTS

R & D expects to have preliminary economics for the proposed Telescope and Mount for review at the February Operations Committee Meeting. Additional information as to volumes, selling prices, discounts, gun sales increases, etc. will be required in order to complete the evaluation.

The proposed design of a fixed scope and adjustable mount is considered to have features that would be distinctive.

It was suggested that R & D confidentially review the proposed scope and mount design with selected gun writers prior to consideration by Management.

Committee Action

The Committee approved the review of the proposed design with one respected gun writer to obtain opinions on the Remington design.

The meeting adjourned at 10:15 a.m.

The next meeting is scheduled to be at Iliion February 15 at 8:30 a.m.
