

TRAPS - contd.EXPERT, BLUE ROCK & WONDER TRAPS - contd.

Parts and assemblies for the Expert and Blue Rock Traps have been transferred to Ilion. The program is to transfer the Wonder Trap to Ilion the week of April 17.

HAND-FED ELECTRICAL TOURNAMENT TRAP

The possibility of importing from Germany and sale by Remington of the "Nimrod" Trap is being considered.

Quotations are also being obtained from an outside source to develop a hand-fed electrical tournament trap.

METAL FINISHES

The improved finishing equipment is being operated on a three-shift basis. All Model 870 Receivers and Barrels and Model 1100 parts to the extent of equipment capacity have the improved finish.

The vendor has promised to ship equipment by the end of June which will provide the added capacity required for the Model 1100.

Full production of the Models 742-760-700-600 (660) and 11-48 should be effected by October 1967.

WOODFinishes

Three approaches to improving the weatherability of lacquer Stocks are being investigated. The first is the use of the Benjamin Moore product. Tests have been completed and the desired improvement resulted.
