

July 17, 1969

TARGET TELESCOPES - contd.

The R & D N/C Shop has estimated the cost of the main body for a Remington mount. It is indicated that a mount can be produced at Ilion for less than the purchase price. It is proposed to provide tooling and start manufacture of mounts for use with the new Scopes.

BENCH REST BULLETS

The delivery of the V & O press which is required to start production of Bench Rest Bullets has been delayed until November 1969. Materials should be available and tooling tryout completed before November.

The meeting adjourned at 1:00 p.m. The next meeting is scheduled at Ilion Thursday, September 18, 1969 at 11 a.m. and will include a review of the Arms Development Schedule.
