

SHOTGUNS - contd.MODEL 870-1100 LEFT HAND SHOTGUNS  
(Introduction 1971)

Production reported that four (4) pre-pilot Model 870, 12 gauge left hand shotguns were assembled. Testing was satisfactory. Pilot guns are now being assembled.

Marketing recommended the addition of a plain and vent rib magnum Barrel specification and a change from a TBMC 30/M vent specification to a TB 30/F vent. The proposed specifications for the Model 870 left hand shotguns are as follows: ..

	<u>Model 870</u>	
	<u>12 Ga.</u>	<u>20 Ga.</u>
30/F Plain	x	
30/F Vent	x	
28/F Plain		x
28/F Vent		x
28/M Plain	x	x
28/M Vent	x	x
26/IC Plain	x	x
26/IC Vent	x	x
30/F Vent TBMC	x	
30/F Vent TB	x	
30/F Mag. Plain	x	
30/F Mag. Vent	x	
	<u>10</u>	<u>6</u>

Committee Action:

The gun specifications as proposed by Marketing were approved.
