

FIREARMSWOOD PRESS FORMINGMODEL 870, 12-16-20 GAUGE FORE ENDS

R & D reported that installation of the equipment for press forming Model 870 Fore Ends has been completed. Try-out of equipment will start this week.

MODEL 742-760 CENTER FIRE RIFLE STOCK

Production reported that master and profile dies for press forming Model 742-760 Stocks are now 50% complete and are on schedule. A pilot lot of Stocks is through the Stock process machine group operations. Equipment and tooling will be ready to complete subsequent operations on schedule.

SHOTGUNSMODEL 1100, 20 GAUGE LIGHTWEIGHT SHOTGUN

Production reported on the Bridgeport endurance testing of three (3) Model 1100, 20 gauge lightweight shotguns as follows:

| <u>Gun No.</u> | <u>Rounds</u> | <u>Failure Since Last Report</u> |
|----------------|---------------|----------------------------------|
| 1 | 4140 | Replaced Barrel Seal |
| 2 | 7120 | No failures |
| 3 | 7710 | No failures |

The Barrel Seal is only failure in these guns since the Receivers were replaced.
