

TRAPS - contd.SWEDISH TRAPS

Marketing has written to Hansen regarding the feeding and patent infringement problems. There has been no answer from Olin on the possibility of obtaining a license to use their patented features.

SEMI-ANNUAL FIREARMS DEVELOPMENT SCHEDULE

A new Semi-Annual Firearms Development Schedule was distributed at the meeting and was reviewed. Marketing wants warehouse dates to be October rather than December. Further review and revision of the schedule is required.

A draft of the revised schedule is attached to copies as indicated by asterisk* and will be presented for approval at the next Operations Committee Meeting. 83

Plant manufacturing space is being evaluated based upon the schedule for the proposed new family of center fire rifles and shotguns. It is indicated that construction of additional space should start in 1973 early enough for building in good weather.

Marketing is developing a 10 year forecast by model.

The meeting adjourned at 11:20 a.m. The next meeting is scheduled to be at Bridgeport at 9 a.m. on Friday, April 21, 1972.
