

TRAPS - contd.ELECTRIC TOURNAMENT TRAP - contd.

Marketing reported that this trap will sell for \$1620 to gun clubs and \$1735 to distributors. Performance to date indicates reduced target breakage and better thrown targets. There are semi-firm orders for about 20 traps.

Committee Action:

The Operations Committee recommended General Management authorization for invoice shipment of Electric Tournament Traps.

REMINGTON SKEET TRAPS

R & D reported that they do not have authorization for development of the skeet trap. One tournament trap is being modified to determine whether or not adjustments are adequate for skeet use.

Marketing is interested in the skeet trap. The proposed design and economics are to be reviewed. If both are acceptable, a program to develop the trap will be started. January, 1974 introduction is desirable.

The meeting adjourned at 11:25 a.m. The next meeting will be on Friday, June 22, 1973 at Ilion at 11:00 a.m.
