

EXHIBIT 8 - contd.

- Re-evaluate make versus buy as volume changes - Consideration is given to screw machine capacity in particular and all other purchased parts with potential to be made in-house. Trigger plates have already been mentioned.
- Perishable Tool - Design Review - Savings of over \$70,000 have been realized in the past 6 months. Future savings of approximately \$35,000 should come from a change in abrasive belts.
- Reduced Warranty Repairs - Product Improvements
