Production reported that the new second source of supply for walnut has started deliveries on short Stocks and Fore-ends. Long Stocks for Model 700 will begin in March. This wendor will supply approximately 25% of our short Stocks and 38% of Model 700 Stocks.

A written report has been beceived covering Phase I "Availability of Walnut for Gun Stocks." A letter will be submitted by L. J. Boyle and plant papple outlining the scope of Phase II. A purchase order has been issued for Model 600 Stock blanks cut

from birch wood. Delivery is expected in April.

Production reported that delivery and lead time for steel continues to be extended. The coal strike in November has affected January and February steel deliveries.

Our steel suppliers project extended deliveries into the third quarter of 1975.
