

RE: REMINGTON AND PETERS SP16RS AND PS16RS SLUG LOADS

-2-

In addition, we need from the wholesaler, the names and addresses of all dealers to whom they made shipment since receipt of the above product. If the wholesaler is not cooperative, it is imperative for you to visit him and pull the information personally, if necessary.

As soon as the dealers' names and addresses have been obtained from each jobber, we ask that you call them into Jack Chisnall at Bridgeport. Your cooperation in contacting as many local dealers as possible will be appreciated.

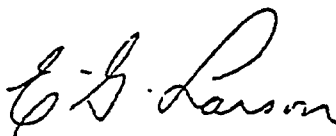

Upon receipt of dealer information, we in turn will contact the dealers, asking for the return of product of the type and codes involved. 83

Any remaining stock at jobber level (or dealer level, if known) should be returned COLLECT, best way, to

J. H. Chisnall  
Supervisor, Product Service  
Remington Arms Company, Inc.  
939 Barnum Avenue  
Bridgeport, Connecticut 06602

We will, of course, make a no-charge replacement of all quantities returned.

Thanks for your help.

E. G. Larson  
Manager, Field Service and Promotion
