Bklyn, N.Y. 11236

Dear Sir.

Would you please give me the address of
a good Gun Smith in New York City
I bought a model 788 bolt action 243
Rem um 1708. in your it was a crack stock
and I had given a new stock. I took it to
the range and I couldn't hit anything
with it so I put a scope on it and
gladly fed the stock and reloaded for it
put it still shoot 8" low. I have never
been able to hunt with it. and the
problem I have with it now is that
when the safe is on when I take the
safe off it is like pulling the trigger
it dry fire I am afraid to put a
round in it because I can't remove it
if I don't fire it. and it is not safe
at all. Thank you.
