Minute #6 - 1981

PRODUCT SAFETY SUBCOMMITTEE MEETING

SEPTEMBER 18, 1981

PRESENT:

Subcommittee

J. P. Glas, Chairman
P. A. Lewis, Secretary
R. A. Partnoy
T. W. Rawson
J. G. Williams

Others

J. H. Chisnall
P. H. Holmberg
F. T. Millener
J. E. Preiser
R. E. Schrader
R. B. Sperling
C. B. Workman

38 Special 158 Gr. LHP Recall

Of the 267,000 rounds recalled for case separations caused by an excessively deep cannellure, 96,874 rounds or 36.3% have been returned. The bulk of the recall probably has been returned since only 532 rounds have been returned since the last meeting. Product Service considers this a good return considering this was a relatively new cartridge. The pipelines were not full and it could be assumed that the cartridge would be used. Advertising was published per Exhibit "A".

Since all recall procedures are in place and working well, the Subcommittee decided to drop this item from the agenda.

Advertising for Recalls

The letter from E. J. Garrity to J. C. Callahan, relating to recall advertising, dated 5/5/81 and attached as Exhibit "B", was discussed. The Chairman will contact Garrity for additional
