

5/10/94

Mr. Smith,

After calling your Customer Service Department, I am returning for repair this 700 series 30-06 which I bought last year or the year before. It has fired on me which I put the bolt back and when I removed the safety, this is very dangerous. Please let it if you can replace it. I have bought Remington guns all my life and this is the first such problem I have had. Thank you.

Respectfully,

Dr. Louis J. Lanunziata
