Attn: Repair

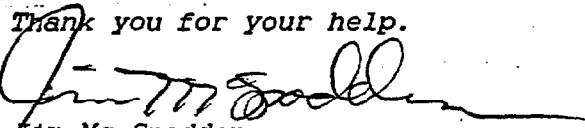

Re: Remington Model 700 .17 Cal, Serial #6711779

To whom it may concern,

This gun is being sent in to be checked for a problem with accidental firing. Several times over the last year or so it has discharged as the bolt is closed. The owner is concerned that considering the guns age it could be a wear problem. He would like the gun checked over and any excessively worn pieces replaced.

Please check it out and call me at 206-364-6304 BEFORE making repairs. I will contact the owner and let him know the cost and estimated time to repair the gun.

Thank you for your help.

Jim Mc Spadden
Operations Manager
