Mr. Larry Reed  
P.O. Box 549  
Alva, OK 73717

Dear Mr. Reed:

We are in receipt of your note and check in the amount of \$35.00 to cover installation of a new non-bolt lock trigger assembly for your Model 700 25-06 Rem caliber rifle.

We are processing the trigger replacement on your rifle at this time.

However, we regret that we cannot comply with your request to return the original trigger assembly from your rifle, since trigger assemblies are restricted parts (requiring factory installation) and cannot be supplied to individuals. The reasoning behind this company policy relates to the fact that any adjustable fire-control requires proper adjustment and installation to insure beyond-a-doubt safe operation. As a safety conscious hunter/shooter, we're sure you can understand the requirement.

Thanks for giving us this opportunity to be of service, Mr. Reed, and we wish you every shooting success.

Sincerely,

  
J. A. Stekl
