

Dear Sirs,

This gun "fired" one time when the safty was taken off. Would you please check that out for me. Also, I would like for you to clean the gun if it needs cleaning, and inspect it for any other damage or problem. The gun doesn't seem to want to "group" very well, as you know that may be the gun or the shooter. If you would please call if this will cost more than \$30.⁰⁰.

Thank you,
Randy Stephens
