Hello,

Mr. Jamie Volguardsen spoke with you on approximately 11/13/16. His gun misfired and blew a whole in a roof at a firing range. Wal-Mart at 770-503-9300 sent the gun in to the factory on the 13th, but so far I have been unable to trace it. Can you please call him back on his cell, #706-892-5567? I thought perhaps since it is a liability issue you might have intercepted the gun.

Thanks.

Dear Mr. White,

We were sorry to learn of the unfortunate incident that you experienced while enjoying your hunting trip. We are certainly glad that no one was injured, and that you are anxious to get back to enjoying the shooting sports. Please keep a track of the receipt from your deductible for your truck and I will see what we can work out with you on this.

As we discussed, I have enclosed a prepaid UPS shipping label for you to ship the firearm back to our factory for replacement. Per your request, we will destroy your rifle (serial#71318571). I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the rifle is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

Please describe your problem: The gun was in my hands when it went off, shooting a hole in my GME 2004 Denali. I was going to place the gun down in the back seat to take off my gloves. I had all intentions of unloading the firearm but it went off facing the front passenger side of the truck. The safety was on and my hand was on the butt and barrel.

RE: Case # 789

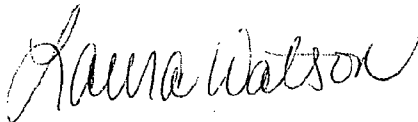

Dear Ms. McNichols,

We were sorry to hear about your rifle firing when you released the safety. We are certainly glad that your injuries were not any more serious, and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label for you to ship the firearm back to our factory for examination and repair. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the rifle is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

When he closed the bolt, the gun went off. He took it to Walmart and they would not take it back, just send it in for repair. Cust went to other gun shops and noted that the bolt seems to stick in all of these. He does not feel safe with this rifle and wants his money back or another gun. He said he would take care of his friends truck.lw
