Dear Mr. Supry:

I had the pleasure of speaking to you on August 21, 2008. During our conversation I informed you that I purchased a Remington 700 CDL "Classic Deluxe" from Bass Pro Shop Outdoor World in Dania Beach, Florida. This is the Bolt Action Centerfire Rifle 26" Barrel 300 WIN MAG with R3 Recoil Pad. **G6556125**

I explained that I am going bear hunting in Canada in early October and used this rifle on a Trophy Boar Hunt on August 8, 2008 to see how it functioned.

I fired a round and ejected the spent shell. As I was chambering another round the gun fired. I've got to tell you that everyone in the hunt party was in shock.

This accidental firing is very concerning to me, as obviously it could have ended in a fatality had I not had the gun pointed in the up position.

I have always been a proud owner of Remington firearms and Remington products and purchased this Remington Rifle, as I felt it was the finest rifle on the market. There certainly were cheaper brands. Since this incident I have lost my confidence and I'm extremely apprehensive to handle this firearm. I own a management company in South Florida and when I'm not working I'm out hunting and fishing. I have had experience with guns for over forty five years and in that time I've had a few shells that didn't fire and I've had semi automatics jam, but I never owned a gun or rifle that fired as a result of a mal function.

I informed you that Bass Pro Shops - Outdoor World would be shipping this rifle to you. Please get back to me at your earliest convenience with how Remington can resolve this situation.

I can be reached at the below telephone numbers.

Your personal attention to this matter is greatly appreciated. I look forward to hearing from you.

Sincerely,

*Kenneth A. Modica*
