12/1/10 Per call from David, this weekend his 14 yr old son was in the stand with him and raised his Model 7, removed the safety and it fired without him touching the trigger. The father was able to duplicate it twice more with it unloaded but has not been able to since that day. He adjusts all his triggers himself. He has a gunsmith clean his rifles regularly. He has other Model 7's and 600 that have never had a safety issue but he will contact our RARC in Dallas to have a free inspection on those. He is the original owner of this Model 7.cm
