Dear Mr. Kohlman,

You will receive a pre-paid shipping label in a separate email within 24-48 hours. Please include a copy of this letter to put inside the shipping container. The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. Mark the ends of the box with "Product Service". Product Service will be inspecting the firearm and will contact me with the results.

I hope that this action will keep you a loyal Remington customer.

Sincerely, D. Fulcher Consumer Affairs Administrator Remington, H&R, Marlin

## Terry and Kathy Kohlman

December 7, 2010

Memo To: Remington Service Dept.

Subject: Model 700 Safety Modification Program

Factory Repair Form - "Please describe your problem and date of occurrence:"

When the rifle was new, my wife was unloading it outside after deer hunting. In "jacking" ammo thru the bolt action rifle to eject cartridges, the rifle fired. She had the muzzle pointed at the ground, so no one was hurt.

Since then, the only time the rifle was fired was by me, on the rifle range, a few rounds every few years. It never misfired...until now.

Because my grandson is now ready for a rifle, I decided to return it under Remington's Safety Modification Program. I store my center fire rifles in the uncocked position, but in preparing it for shipment I worked the bolt to make certain again it was unloaded. In returning the bolt after "cocking", the rifle fired. This time it was just a "clunk" rather than a round fired, but the sound was unmistakable.

Please make the repairs necessary under your Safety Modification Program to make the rifle safe.

The rifle can be returned to the address at my letterhead.

For any charges, my Credit Card is VISA

Terry Hohlman

; Exp. 12/12

Sincerely,
