Mr. Joseph Miskowicz
220 Division Avenue
Shelton, Connecticut

Dear Mr. Miskowicz:

Thank you for your nice letter of May 17th with regard to the new XP-100 Varmint Pistol. We have not overlooked the possible need for a repeater in this action, and if there is sufficient demand it will very likely be introduced.

We are all certainly pleased at the enthusiastic reception of this new and different pistol, and our design people will appreciate your comments.

Sincerely yours,

S. M. Alvis, Manager
Ilion Research Division
