Gentlemen

I have one of your XP100S. and
like it, all but one thing, single
shot. So I put a 12-shot magazine
in mine. and was wondering if
you folks would be interested
in it. The only change I made
in fire ball, was to install one
screw hole, so it will go on all
fire balls you have or old as well
as the future ones you make

Yours truly

C. A. Briggs
