February 18, 1969

W. E. LEE
M. H. WALKER
J. W. MILLER
R. P. KELLY
P. H. ECCLESTON

C. H. MORSE
A. A. HUGICK
C. B. WORKMAN
C. W. STEPHAN
H. L. HAMEISTER

Safety

- New York State Annual Safety Campaign continuing and promotion in industry usually results in 50% improvement in performance.
- One Off-the-Job injury so far this month. An auto accident - driver not using seat belt.

Quality

- One 100-demerit for the M/660 -- "Follow down" - connector binding on trigger.
- One 50-demerit for M/580 -- Improper hole size for trigger housing.
- Equipment and tooling report is correct and the line screened.
- Quantity of M/700 rifles being returned from West Coast because of checkering appearance.

Other

- New published statistics show New York State lagging in regard to advances for industrial employment, and attributable to climate created by tax increases.
- Research cost reports for January have been released so that estimates for forecast can be completed. Due in Bridgeport this week.
- Operations Committee - Thursday, February 20th at Ilion.
