RESEARCH PROGRESS REPORT

Information for the subject report should be in my office by July 24, 1978 for submission to E.F. Barrett.

Illion Research Division portion of last month's report is attached for information.

Bench Rest Bullets

Approximately 68,000, 6mm bench rest bullets have been shipped to the warehouse.

The cost reduction program on the 6mm bullet job is continuing. The second machine draw operation has been automated and resulted in reducing the direct labor by one. An estimated savings of approximately \$1300/month is expected to be realized.
