PROPOSED VIEW TO TRIGGER HOUSING COMPONENTS

To

Owner's Manual & Parts Price List

Due to recent changes in the sales of critical components several parts are restricted. All work on the XP-100 Trigger Housing Assembly is done by Arms Service. Model 1100 Right and Left Connectors, Trigger and Trigger Assemblies are not available to gun owners.

All our current Owner's Manuals and Parts Price List have exploded views showing the complete disassembly of the Trigger Housing components which show a gun owner how to disassemble these critical components.

Attached are current and proposed view alterations to exploded views of XP-100 and M/1100 used as examples. Proposed view would minimize the possibility of a gun owner attempting to disassemble these units.

Please review and add comments.
