MODELS 721-722 FIRE CONTROL

We have shown to E.G. Larson and E.F. Barrett a Model 721 having a M/700 Trigger Assembly with altered Trigger, Safety Arm and Stock. They have given verbal approved to proceed with this change on rifles that are returned and require repair of the Trigger Assembly.

We have worked with Custom Repair on this application and Don Polley is familiar with the changes required. We are ready to help in implementing this application.
