TO: J. R. AYERS
FROM: J. C. CALLAHAN
SUBJECT: 7MM MAUSER

We would like to introduce a 7mm Mauser with 140 grain PSP bullet for 1981. This would replace the 175 grain SP now offered. We would like to have this for December 1 announcement. Our purpose is two-fold:

- This will eliminate a single use bullet and improve this caliber's performance.
- This caliber will support a special Model 700 chambering for 1981.

If a Remington bullet will not be available, we would like to use the same purchased bullet that is used in the 7mm-08.

JCC/as

*Modifications of usual
to dovetail our non-catalog
special consideration.
