COMMITTEE TO DEVELOP NEW FIREARM PRODUCT IDEAS

We have been selected to participate on an Ad-Hoc Committee to come up with short-range firearms product ideas that will help stimulate sales. I am presently working to clarify the Committee's objectives with Ed Barrett.

Please arrange your schedule so that we can meet in Ilion on Thursday, August 5, to review our objectives and determine what course of action we will take. The plane will leave Bridgeport at 7 A.M. (Will J.S. Martin please arrange for ground transportation and a meeting room?) The meeting should not last more than two hours, and we will be back in Bridgeport by early afternoon.
