RE: ACCURACY SPECIFICATIONS FOR MODELS 700 & MOHAWK 600

DON'T SAY IT-WRITE IT

Linde

File M/Seven LWT

Date 9-1-82

The following accuracy specifications are in our present standards:

	<u>.222</u>	<u>6MM</u>	<u>.243</u>	<u>.308</u>	<u>7MM-08</u>
Model 700	2.2	2.2	2.2	3.5	2.7
Mohawk 600	2.7	2.7	2.7	3.8	-

I would recommend that we stay with these specifications for the Model Seven, and use 3.2 for the 7MM-08.
