TO: C. B. WORKMAN  
FROM: T. L. CAPELETTI *TC*  
SUBJECT: TECHNICAL REVIEW SCHEDULE FOR 1982

Based on suggestions from the group Supervisors, I propose scheduling Quarterly Technical Reviews for 1982 as indicated below. From our experiences last year, it appears that we should target the Reviews for the last Tuesday of the month. Therefore, I have included recommended dates as indicated.

Proposed Schedule:I. February 23, 1982

- a) Tom Powers - Shotgun Gas System Development
- b) Randy Murphy - Shotgun Carrier Latch Design
- c) Scott Franz - Competitive Bolt Action Rifle Evaluation

II. May 25, 1982

- a) Chris Miller - 1) Review of Bolt Velocity Measuring Techniques or  
2) PCB vs. Copper Crusher Techniques
- b) Jack Kast - Automatic Hold Open Device for Rimfire Autoloaders
- c) Ken Rowlands - Metal Injection Molding Equipment and Facilities
- d) Bob Sanzo - Review of N/C Shop Capabilities - 4/28
- e) Ed Owens - Machine Technology Applied to Firearms 4/28

III. August 31, 1982

- a) Kevin Calkins - Autoloader Shotgun Carrier Latch Systems
- b) Ed Yetter - New Test Lab Measurement Techniques
- c) ~~Jeff Lawrence - Firearms Testing Without Ammunition~~
- d) Alicia Makowski - Investment Casting Analysis

Technical Review Schedule for 1982

page 2  
1-12-82

IV. November 30, 1982

- a) Jim Hennings - Firearms Litigation
- ☞ b) Ed Owens - Form Rolling
- c) Bart Panagian - 100% Inspection Techniques
- ~~d) Alicia Makowski - Automate the Final Inspection Procedure~~
- d) Jeff Lawrence - Gallery automation or value analysis
