Re: Barbara Schierkolk

Dear Mr. Sperling:

Thank you for yours of January 13, 1983. The gun in question is currently being examined by a gunsmith here in Denver, Colorado. Naturally no instructive testing is involved.

If the gunsmiths report indicates no defect in the gun I will so advise. If the report does indicate a defect in the rifle I will seek to obtain permission from the Yost to ship the gun to Remington for its examination.

Yours very truly,

*D-M Bryans*
