To: D. J. Sanita

From: E. G. Larson

Dennis:

In our Safety Meeting review of the 600 recall yesterday, E. F. Barrett asked for a tabulation of safety related complaints received in the past six months on all bolt action centerfire rifles.

Would you please have your files reviewed, and list the model (either current or obsolete), and the number returned.

All complaints should be included, and if we have found some to be unjustified because owner changed screws, altered parts, etc., please note.

Many thanks.

E. G. Larson
